**MEMORANDUM FOR: Chief, CI/R&A**

**THROUGH : DDP/TRO**

**SUBJECT : Proposed Seminar for OTR  
Instructors and CI Staff: "Training  
Case Officers in their Counter-  
Intelligence Responsibilities."**

**REFERENCE : A. CI/R&A Memo, dated 24 March 71  
B. DDTR Memo, dated 20 April 71  
C. CI/R&A Memo, dated 18 May 71**

1. We would like to suggest one change in the objectives listed in your 24 March memorandum, namely, the deferring of the third objective for a later date. In other words, we would prefer to talk about the CI content of current courses and how it is presented and hear from the CI Staff their views of the inadequacies of the present practice. Having done so, it should then be possible to agree on the changes needed and where they should occur. After digesting this information it should be for OTR to realign instructor efforts along agreed-upon lines with whatever additional assistance would be needed to bring these changes about.

2. We agree with your position that a symposium of more than fifteen persons becomes unwieldy. We propose that our participants be the OTR personnel most concerned with overall design of courses, tentatively not more than six persons. Later, after we have worked out implementation of changes, we may find it necessary to ask your help in updating instructors' knowledge so that they may convey CI doctrine more effectively.

3. The week beginning 7 September 1971 (a Tuesday) gives us greatest flexibility in making personnel available. We can assemble the OTR personnel in Washington, D. C. area, and have scheduled a room at Headquarters which we believe will be satisfactory for that purpose.

4. Our feeling is the presentation of material on what is now given and how will require more time than is now allotted in the draft schedule and we suggest the coordinators from both CI Staff and OTR get together to work out the time segments.

5. We defer to you and suggest that the CI Staff chair the proceedings. [REDACTED] and room 615, 1000 N. Glebe Road) will make necessary arrangements.
